

M1: Robotic Custodial Solution

MANAGING ROBOTS TO PERFORM YOUR CUSTODIAL NEEDS

Service Robotics & Technologies

(SRT) is a software and services company focused on providing robotic solutions to support the custodial, senior care, hospitality, and general services industry.

Description

The M1 software allows building managers and custodial companies to manage a team of robots to support a wide variety of tasks:

Vacuuming
Mopping
Disinfecting

Security
Telepresence
And many more...

Benefits of Robots

Cost Savings – staff and supervisor salaries and benefits, and training employees who do not remain on the job

Quality of Service – consistent results, 24/7 availability, do not require breaks, limited recharge downtime

Improved Task Oversight – key performance indicators and tasks being performed by each robot is tracked, managed, and reportable

Applications

SRT determines client needs, sources appropriate robots, integrates robots into the M1 software, installs at client facility, trains staff, and provides maintenance and technical support.
